#### ABOUT NPRCET ACM STUDENT CHAPTER

ACM at NPR College of Engineering and Technology is focused on fostering creativity and innovation, with the vision of developing future tech leaders who will redefine the boundaries of computing. Our mission is to provide members with opportunities to gain practical skills through immersive experiences such as coding competitions, hackathons, and collaborative projects. To achieve this, ACM at NPRCET actively organizes events that challenge students to sharpen their problem-solving skills. Additionally, we offer study groups and coding sessions to help members navigate difficult coursework, ensuring they are equipped to succeed in the fast-evolving tech landscape.

#### Vision:

• To inspire creativity and innovation among students, cultivating the next generation of tech leaders who push the boundaries of computing.

#### **Mission:**

• To empower members with hands-on experiences and technical skills through coding competitions, hackathons, and collaborative projects.

#### **Goals:**

• Organize hackathons and coding competitions to enhance problem-solving skills,Offer study groups or coding sessions for challenging coursework.

#### NPRCET ACM STUDENT CHAPTER

Our ACM Student Chapter has been provided with **cPanel hosting service** by ACM, enabling us to professionally manage and maintain our official website. cPanel is a powerful web-based control panel that simplifies hosting with its user-friendly interface. It allows us to upload and organize website files, create and manage databases, and configure custom email accounts linked to our domain. With built-in tools for backups, SSL security, and performance monitoring, cPanel ensures that our website remains reliable and secure. It also provides insights into bandwidth usage and resource management, helping us optimize performance. Through this platform, our chapter's website serves as a digital hub to showcase events, activities, and resources effectively. The hosting service provided by ACM not only ensures a global identity for our chapter but also prepares us with practical knowledge in web hosting and server management. Scalable and industry-relevant, it supports our future growth and evolving technical requirements. With cPanel access, we gain hands-on exposure to professional website management while enhancing our digital presence. This initiative strengthens the chapter's online outreach and establishes a reliable platform for engaging with the computing community.
